Statement of Intent	3
College health and safety organisation	5
Health and safety document held on Metis	13

Introduction by the headmaster

1. The health and safety policies are approved by the board of governors and authorised for use throughout the College. It is based on the requirements laid down in the *Health and Safety at Work Act 1974* (HASAW) and other acts of Parliament and secondary legislation (statutory instruments or regulations) that are enforced by the health and safety executive (HSE). It also follows Department for Education (DfE) guidance for schools' document: '*Health and Safety: advice on legal duties and powers*'.
2. Prime responsibility for maintaining and updating the policies rest with the Health and Safety Officer. However, all College employees have some degree of responsibility for health and safety, including the requirement to contribute to the accuracy, effectiveness and utility of policy and management of risk. Any proposals for amendment to, or expansion of the manual would be welcome; these should be submitted direct to the College Health and Safety Officer in writing, for editing and formal promulgation to all holders. Unauthorised changes to policy documents are not permitted.

A handwritten signature in black ink, appearing to read 'Tom Lawson'.

Tom Lawson
Headmaster

Feb 2020

Statement of Intent

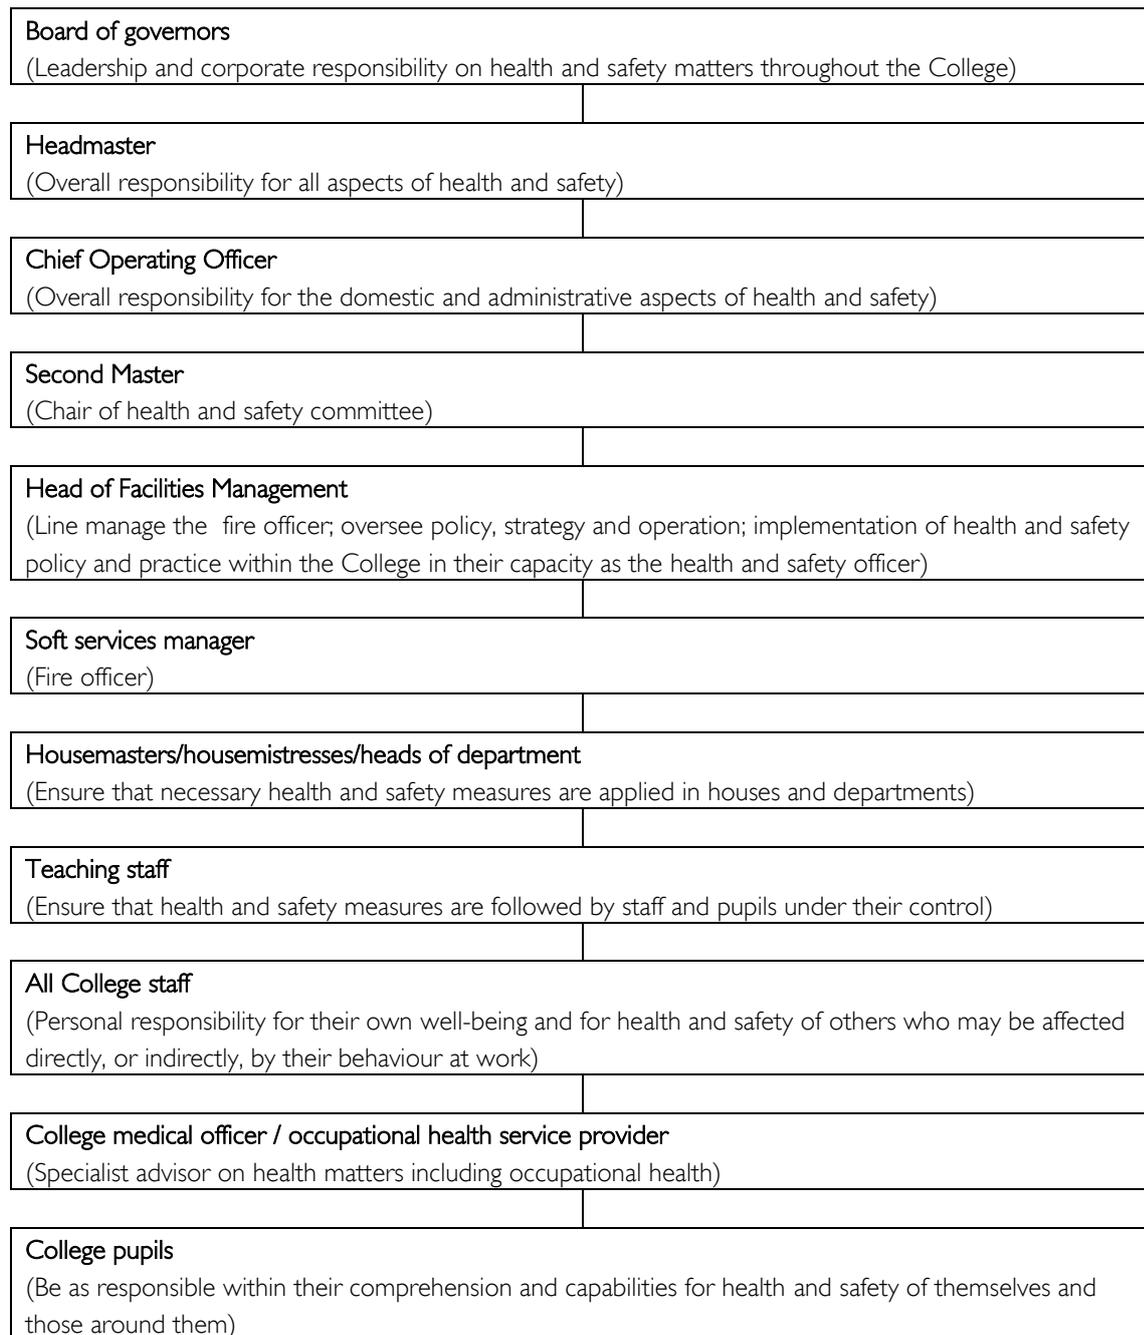

1. The governors of Eastbourne College recognise that under the *Health and Safety at Work Act 1974* and subsequent regulations that have come into force that they have a legal duty to ensure, so far as is reasonably practicable, the health, safety and welfare of all their employees and that they have certain duties towards pupils, visitors and contractors and people who use the premises of the College from time to time.
2. The governors accept these duties and it will continue to be their policy to promote standards of health, safety and welfare that comply fully with the terms and requirements of the above act, regulations made under that act and approved codes of practice. It is considered by the governors that health and safety is a responsibility at least equal in importance to that of any other function of the College. A member of the governing body shall be appointed to act as a focal point for Health and Safety matters and will report on them from time to time to the board.
3. The governors and College recognise the Education (Independent School Standards) (England) Regulations, 2014 and the guidance issued in 2019. Additional DfE guidance is contained in *Health and safety: responsibilities and duties for schools (Nov 2018)* and the latest version of the *ISI Inspection Framework*.
4. The College will provide and maintain a written risk assessment of the risks to health and safety of its employees whilst they are at work and others who may be affected, as required by the management of Health and Safety at Work Regulations 1999.
5. The governors and College recognise the good practice contained in the HSE guidance booklet "School trips and outdoor learning activities: tackling health and safety myths" and intends to follow the recommendations it makes.
6. The governors will take all such steps as are reasonably practicable to:
 - a. Provide and maintain safe and healthy working places and systems of work and to protect all employees, pupils and others including the public insofar as they come into contact with foreseeable work hazards;
 - b. Provide and maintain a safe and healthy teaching environment for all employees and pupils, with adequate facilities and arrangements for their welfare, including arrangements for the use, handling, storage and transport of goods, articles and substances;
 - c. Provide all employees and pupils with the information, instruction, training and supervision that they require to work safely and efficiently. The College's health and safety consultants are available to provide relevant information and this will be disseminated to the staff as appropriate;
 - d. Develop safety awareness amongst all employees and pupils and, as a result of this, create individual responsibility for health and safety at all levels;
 - e. Provide a safe environment for all visitors to the College's premises, bearing in mind that these visitors may not necessarily be attuned to certain aspects of the College's environment.
 - f. Control effectively the activity of all outside contractors when on the College's premises. It is the intention of the governors that, apart from routine supervision and control of contractors, this aim will be achieved in part by demanding copies of the contractors' safety policies at the tender stage;

- g. Encourage full and effective two-way consultation on health and safety matters by utilising the management structure of the College and the committees already existing;
 - h. Ensure that this policy is used as a practical working document and that its contents are publicised fully
7. Constantly review the details of the policy and keep it in line with changes in current legislation.
 8. Reference is made here to the requirements under the DfE's *Boarding Schools National Minimum Standards*, which came into force from 1 January 2013, and fire safety provisions under the Regulatory Reform (Fire Safety) Order 2005.
 9. The College will ensure via the Health and Safety Officer that staff and pupils are aware of the College's health and safety policies and practices.
 10. To these ends, the governors have appointed Owen David Risk Management Limited to provide the necessary legal, technical and practical information and also to provide an independent monitoring service of the activities of the College.
 11. Information on this statement will be issued to all employees on their taking up employment with the College. The statement, which may be reviewed or modified from time to time, should be read in conjunction with appropriate instructions in the *Eastbourne College Health and Safety Manual*, which is available for all to read on the Eastbourne College intranet website.

Abbey Gough
Chief Operating Officer and Clerk to the Governors
On behalf of the Eastbourne College (Incorporated) Governors

College health and safety organisation

Management structure and terms of reference

Governors

The governors accept full responsibility for health and safety within the College. They will constantly monitor the effectiveness of the implementation of this policy and will revise it where necessary. The governors will ensure that any changes in this policy will be drawn to the attention of all employees. A nominated governor will act as the focal point for College health and safety matters and will report on them from time to time to the board.

Headmaster

The headmaster is responsible to the governors for the safe functioning of all College activities. The headmaster is required to:

- a. monitor the effectiveness of the policy as regards both academic and non-academic work and report back to the governors as appropriate
- b. appoint the second master as chair of the Eastbourne College health and safety committee
- c. consult with the health and safety officer and fire officer
- d. recommend changes in the safety policy in the light of experience
- e. ensure the cooperation of all staff at all levels as regards working this policy
- f. ensure that all heads of department, hsms and all departmental heads on the domestic side fully understand their responsibilities and are given both the time and the encouragement to pursue them
- g. ensure that any changes in curriculum and also changes in systems of work on the domestic side are considered for their health and safety implications.

Chief Operating Officer (COO)

On a day-to-day basis, the headmaster's responsibility as regards the domestic and administrative side of the College will be devolved to the COO. The COO is required to:

- a. Monitor the effectiveness of the policy and report back to the headmaster as appropriate
- b. Appoint a health and safety officer as the College's nominated health and safety person, responsible for obtaining, interpreting and disseminating all relevant health and safety information to the College via the normal line management structure
- c. Be the liaison point with the College's health and safety consultants and ensure that their services are used fully to obtain all relevant health and safety information
- d. In a line management function, be responsible for the safe operation for all administrative, maintenance, janitorial and domestic staff
- e. Be responsible for ensuring that all maintenance contracts involving outside bodies which monitor certain aspects of the College functions are fully used and kept up to date
- f. Where individual employees in the various domestic functions listed above are given posts of intermediate responsibility, identify those posts in this policy and ensure that those individuals are given the necessary instruction, responsibility and encouragement to carry out the functions that they have been given
- g. Establish a system for the reporting back of all accidents, incidents, near misses and damage to College property and investigate accordingly. Ensure that, as defined in RIDDOR procedures, all relevant accidents are notified to the HSE. The results of these investigations, as well as being dealt with by line management function, will then be discussed by the College's health and safety committee at their next meeting.
- h. Following completion of work associated with the COSHH regulations, ensure that the ordering of all substances is through the Bursary department so that decisions may be taken for additional assessments

- i. Be responsible for liaising with outside bodies, who may from time to time use the facilities of the College and ensure that appropriate action is taken both to ensure these bodies have sufficient knowledge of the College and that the College itself is appropriately indemnified
- j. Be responsible for the selection of outside maintenance contractors and the monitoring of all activities on the College premises and in this context liaise fully with the College architects
- k. Delegate listed responsibilities to the Head of FM or the maintenance manager as deemed appropriate.

Second Master

The second master is responsible to the headmaster for the safe functioning of all College activities. The second master is required to:

- a. Act as chair of the Eastbourne College health and safety committee
- b. Be the designated safeguarding lead (DSL) in respect of safeguarding and child protection policies for the College.
- c. Notify the health and safety governor of any health and safety issues as they arise which are either RIDDOR reportable, complex or prolonged; have the potential to make the press, or to lead to a significant insurance claim.

Head of Facilities Management

The Head of FM is responsible for the implementation of health and safety strategy, policy and practice within the College. S/he fulfils the role of the Health and Safety Officer and is required to:

- a) Advise on the practical application of the *Health and Safety at Work Act* and other safety legislation
- b) Interpret the policies of the board of governors to hsms, heads of departments and other College staffs and ensure that these policies are understood and implemented effectively
- c) With the fire officer, edit the Eastbourne College health and safety manual, its policies and other documents pertaining to fire, health and safety
- d) Line manage and oversee the work of the Fire Officer
- e) Act as adviser to the chair (Second Master) of the Eastbourne College health and safety at work committee
- f) Liaise with the chair's PA to organise meetings of the Health and Safety Committee
- g) Make periodic inspections of domestic, sporting, classroom, laboratory and workshop accommodation and operating methods therein to ensure the provision of a safe working environment and to advise teaching staffs and heads of department of weaknesses in safety arrangements
- h) Liaise with the College's medical officer and senior sister as necessary on occupational health matters and with external agencies as necessary on provision of monitoring equipment or attendance of health and safety specialists
- i) Investigate accidents or dangerous occurrences, independently or jointly with hsms and heads of department, as directed by the headmaster or in accordance with the Accident Policy
- j) Ensure that safety audits are conducted at appropriate intervals and to the prescribed format
- k) Receive and disseminate safety information, literature and publicity material and take all other steps necessary to actively promote interest in health and safety matters throughout the College
- l) Participate in the annual update of policies; oversee and support the update of risk assessments pertaining to health and safety

Soft services manager

The Soft Services Manager, acting in his capacity as College Fire Safety Officer (FSO), is responsible to the Head of FM for the implementation of fire safety policy within the College. S/he is required to:

- a. Ensure that all fire safety regulations, procedures and publications are kept up-to-date and held for reference in the bursary
- b. Ensure all fire risk assessments are carried out in a timely fashion
- c. Carry out regular checks of all fire-fighting equipment held in the school and boarding houses in accordance with current fire regulations and fire safety advisor's guidelines
- d. Ensure that fire practices and alarm tests are carried out regularly in school, administrative buildings and day and boarding houses in accordance with fire safety regulations. He is to maintain a register recording these practices and alarm tests, which must be available for inspection on demand (hsms are responsible for maintaining their own registers, a copy of which should be passed to the fire safety officer at the end of each term)
- e. Provide advice on fire safety matters to all teaching and support staff, with especial attention being given to hsms and heads of departments requirements
- f. Procure all fire safety and fighting equipment required by the school and to prepare the input for these items for the annual budget
- g. Arrange fire safety training for all members of staff in accordance with HSE guidelines for schools
- h. Appoint and liaise with external fire safety consultants, as and when required
- i. In his role as Soft Services Manager, he is responsible for ensuring that the work of his department is run according to the standards laid out in this policy, minimum legal standards and other appropriate standards that may be set by the College or by specialist regulations such as for technical and scientific environments.
- j. Ensure the correct control of COSHH substances and the maintenance of product data sheets where relevant in his area of responsibility.

Hard Services Manager

The Hard Services Manager is responsible to the Head of FM for the following:

- a. The monitoring of all outside maintenance contractors' activities on the College premises and ensuring that the correct health and safety procedures are followed both on major work sites and during normal maintenance activities
- b. The correct control of COSHH substances and the maintenance of product data sheets where relevant in his area of responsibility
- c. Ensure that the highest priority is accorded health and safety maintenance at work
- d. As a member of the health and safety committee, provide health and safety advice on all building and maintenance matters.

Heads of department

The heads of department will be responsible to the headmaster for the following:

- a. Ensuring that his/her department is run according to the standards laid out in this policy, minimum legal standards and other appropriate standards that may be set by the College or by specialist regulations such as for technical and scientific environments
- b. Ensuring that the teachers working under them understand the practical aspects of this policy and the various legal requirements that apply within their area of responsibility
- c. Ensuring that these teachers are aware of the degree of priority that these matters carry and that where appropriate they would be provided with both the time and encouragement to pursue such matters
- d. Notifying the headmaster of any matters within this field which they believe are beyond their competence to deal with
- e. Reporting to the Head of FM any accidents, incidents, near misses or damage for appropriate investigation
- f. Ensuring adequate supervision for pupils both inside the College, during normal teaching activities and also on external trips as detailed in part 3 of this policy

- g. As regards the COSHH regulation, for notifying the bursary management of any new substance that are required to be purchased by their department
- h. Ensuring that the teaching staff, for whom they are responsible, cooperate fully with any fire practices and other emergencies as specified in part of this policy
- i. For the implementation of safe working practices, the provision and use of safety equipment and the reporting of any deficiencies in buildings, plant or other equipment which are a hazard to health and safety
- j. Training or briefing staff and pupils on the safety precautions to be observed in their respective departments.
- k. Ensuring that information on possible hazards, and the safety precautions to be observed are readily available – with warning notices displayed as necessary.

Boarding and day housemasters/mistresses

Apart from the normal supervisory role, housemasters/mistresses have very specific duties, as follows:

- a. Ensuring that the boarding house structure enables all fire doors to be closed at night; if this task is delegated to a house tutor or a house prefect, the house structure should ensure that a physical or oral check is made that the task has been done
- b. Making arrangements for night time fire practices at the agreed frequency for boarding houses and day time fire practices for day houses
- c. Ensure that all pupils and sleeping in domestic staff in houses are fully familiar with all fire instructions and day domestic staff be included in fire evacuation notices
- d. Constantly monitor all the dormitories/day prep rooms as to correct use of electrical equipment and support and allow access for PAT testing
- e. Ensure that all means of escape in case of fire are at all times kept free and unobstructed
- f. Contact the bursary management if there are any problems with the location and allocation of fire extinguishers
- g. Ensure that information on possible hazards and the safety precautions to be observed are readily available with warning notices displayed as necessary
- h. Ensure that premises and equipment under their control are kept under regular review and inspection to eliminate unsafe conditions.
- i. Reporting to the Head of FM any accidents, incidents, near misses or damage for appropriate investigation

Teaching staff

Teaching staff are to see that the necessary health and safety measures are applied. In this respect they are to:

- a. Instruct pupils as necessary in the avoidance of hazards and the safe performance of their work
- b. Ensure that where appropriate health and safety regulations are observed, e.g. use of guards and other safety equipment, wearing of protective clothing, handling of dangerous substances and avoidance of unsafe practices generally
- c. Recommend improvement or changes required to eliminate hazards and remove the cause of accidents and potential accidents
- d. Continually stimulate interest and awareness in health and safety by discussion with pupils.

Laboratory assistants

They will be responsible to the head of department as appropriate for the following:

- a. Isolating gas supplies to laboratories at the end of each teaching day
- b. The constant security of all toxic and highly flammable substances which may be used in their department

- c. To this end ensuring that all stores are kept securely locked when not actually being supervised
- d. Be responsible for ensuring that all experiments and services are rendered safe, so far as it is safe to do so
- e. Be responsible for ensuring that a sufficient number of the correct fire extinguishers are available within, or close to the prep rooms.

Functional managers

This section refers to the managers who head maintenance, ground staff, gardeners, janitorial services, transport caterers (currently outsourced):

- a. These managers will be responsible to the Bursary management for the safe running of their activities. They will be responsible for ensuring adequate supervision of all activities so that the work proceeds according to standards laid down in this policy
- b. They will be responsible for ensuring that staff have appropriate training accordingly to the needs of their work
- c. They will undertake the necessary training pursuant upon completion of work under the COSHH regulations
- d. They will be responsible for ensuring that all agreed systems of work are followed
- e. Where they come across matters that they feel are not within their competence to deal with, they should refer the matter to the health and safety officer
- f. They should be responsible for investigating any accident or incident of a type specified by the bursary management and reporting it accordingly to the H&S Officer.

All College staff

Although individual College employees have a duty to look after their own well-being, they are equally responsible for the health and safety of others who may be affected, directly or indirectly by their behaviour at work. All employees have the following specific duties:

- a. To carry out their work safely in the interest of other employees, the pupils and themselves.
- b. To obey health and safety procedures and work systems, especially those concerning the use of machinery, guards, protective clothing, handling potentially dangerous substances and work on electrical apparatus and equipment
- c. To report unsafe conditions to heads of departments or hsms or to the bursar's management team so that remedial action can be taken
- d. To assist directly or indirectly in the work of the health and safety committee.

College medical officer and occupational health service provider

The College medical officer and occupational service provider will, when requested by the Headmaster, the Head of HR or the College Health and Safety Officer, act in an advisory capacity on the following occupational health matters:

- a. Policies, procedures and facilities required to maintain a healthy working environment
- b. Design of plant, equipment and work systems generally with a view to minimising health risks
- c. Use of potentially harmful substances and methods of minimising health hazards.
- d. Support and advise during health related events, such as epidemics, viral spread.

College medical centre senior sister

The College medical centre senior sister, as College first aid officer, is responsible to the COO for:

- a. Providing first aid guidance, and where appropriate, training to all members of staff

- b. Ensuring that all first aid boxes are appropriate for the use of the location (department house or sport venue) and that they are in-date, fully equipped and properly signed off
- c. Carrying out an annual check on all first aid boxes
- d. Contribute to the review and update of the College first aid policy
- e. Ensuring that the medical centre is staffed, trained and prepared to meet all first aid contingencies throughout the College on a 24-hour basis.

Premises Officer

- a. Acts as the school's principal first aid contact
- b. Is responsible for the delivery of FAW and EFAW training to staff

Health and safety at work committee

1. Aims

To maintain a dialogue on health and safety matters and to provide an opportunity for staff at all levels to participate in the process of framing and implementing safety policy, a College Health and safety committee, with the terms of reference and composition outlined below, is to meet on at least one occasion each term.

2. Terms of reference

The health and safety committee is to be concerned with the following activities:

- a. Co-ordination of all safety matters at Eastbourne College including the examination and analysis of safety records and review of accident reports
- b. The study of accident statistics and trends (including near misses) with a view to improving working practices, together with recommendations for corrective action
- c. Consideration of reports provided by inspectors of enforcing agencies and external advisors.
- d. Fostering an interest and culture in safety matters, accident prevention and occupational health amongst all College staff
- e. Framing of instructions covering safe working procedures and safety rules
- f. Establishing safe environmental conditions such as lighting, ventilation, access, fire prevention, hygiene and tidiness
- g. Consideration of safety suggestions made by College employees
- h. Publicity and safety education and training arrangements, teaching aids, posters, films, booklets and other media
- i. Promoting use of protective clothing and equipment, machinery guarding
- j. Development of robust management systems for health and safety and safe systems of work
- k. Consideration and review at regular intervals of the school's general health and safety policy statement of organisation and arrangements
- l. Ensuring adequate arrangements are in place for conducting risk assessments including their implementation review and evaluation
- m. Consideration of the adequacy of health and safety communication and publicity within the school and in promoting an active health and safety culture
- n. Ensuring that initiatives to reduce accidents and improve the awareness of staff on related issues are effectively implemented and monitored.

The Committee's activities do not supplant or bypass normal management channels; safety is part of everyone's job and the reporting of hazardous conditions or practices is to be dealt with on the spot, through normal management channels, and not held back for health and safety committee meetings.

3. Composition

The College health and safety committee is to consist of the following members:

- Second master (pastoral, safeguarding and child protection DSL) – Chair
- Health & Safety Governor
- Chief Operating Officer
- Head of FM (H&S Officer)
- Soft Services Manager (and as role of College fire safety officer)
- Medical centre senior sister (College first aid officer)
- Deputy Head (Co-curricular)
- Director of Sport
- 1 x hsm (to represent both day and boarding)
- 1 x boarding house matron (as a representative)
- Head of art department
- Head of science department
- Head of design technology department
- Head groundsman or representative
- Hard Services Manager
- Premises Officer (principal first aider and EFAW trainer)
- Head Porter
- Fleet Manager

Catering services are provided by a contract caterer. Health and safety at work matters fall under the remit of the catering company. The general manager receives agenda and minutes of the College's health and safety meetings.

The vice chair of the College health and safety committee is the Deputy Head (Co-curricular)

Any member of the teaching or support staff may be co-opted to serve on the committee as deemed necessary at the time. Any member of the teaching or support staff may attend to observe the proceedings and may contribute if invited to do so.

The director of Deputy Head (Co-curricular) has been drafted on to the committee in connection with his role as the educational visits co-ordinator for the College, in which capacity he is responsible for overseeing and approving risk assessments for school trips or visits at home and abroad.

Health and safety document held on Metis

Health and Safety documentation is stored electronically on the College's portal site. All staff have access to the portal. The portal contains the following:

- Health and Safety Introduction, Statement of Intent, Organisation
 - Accident and Investigation Policy and Guidance
 - Asbestos: Policy and Guidance
 - CCTV Policy
 - Code of Practice for Contractors
 - Control of Legionella
 - Control of Substances Hazardous to Health (COSHH)
 - Disability Policy
 - Driving at Work
 - Educational Visits: Conduct and Guide
 - Fire Evacuation Policy
 - First Aid Policy
 - Health and Safety Manual
 - Minibus Driving Policy
 - No Smoking Policy
 - Personal Emergency Evacuation Plan (PEEP)
 - Risk Assessment Policy
 - Risky Areas of School Buildings and Grounds
 - Security and Workplace Safety Policy
-
- Critical Incident Plan
 - Minutes of the College Health and safety committee
 - Risk assessment library
 - Access to Cleapps
