

from Tom Lawson MA (Oxon), Headmaster

19 July 2021

Dear Parents,

Following the Regulatory Compliance and Educational Quality Inspection which took place at the start of June, the report is now available on the [College website](#).

We should be justly proud of this report. To summarise, we met all of the standards in the Regulatory Compliance Inspection and we achieved the top grading of 'excellent' in the two key outcomes in the Educational Quality Inspection. There is no higher grading possible than we achieved across the inspections.

The report overall demonstrates that we enable pupils to be themselves and achieve their best. This is something we strive to deliver every day, encouraging children to be independent and *find their own superb*; it is satisfying to receive such a positive external validation and acknowledgment of your children's achievement.

Among many positive comments, the inspectors noted:

Pupils are enthusiastically committed to achieving academic success and do so

Pupils' communication skills are excellent; they speak articulately, debate confidently, and apply these skills effectively across the curriculum

Pupils demonstrate remarkably high levels of self-confidence, self-reliance and resilience

Pupils have very purposeful and supportive relationships with each other and across the whole school community

Pupils have great respect for the diversity of the school community

Many of you were involved directly in the inspection process through your completion of the parent questionnaire and I would like to thank you for your overwhelmingly positive endorsement. The relationship we have with parents is so important.

While I am delighted to be sending this report, we will not be complacent and will continue to be forward-thinking about improvements and enhancements that can be made.

Have a wonderful summer.

With best wishes,

Tom Lawson
